Jennifer,

Per prior discussions with the I-Jobs II administration and review of the grant document, it appeared that I-Jobs II funds could be used as the local and state match component of an HMGP grant. If you were to use any excess funding from I-Jobs II on an HMGP project above these requirements, it would be considered a duplication of benefits. It may be possible to use any excess on other projects that are not contained in the HMGP scope of work, but you will need to discuss that with the I-Jobs II people.

If HMGP funds are used for a portion of the project, do they conflict with I-Jobs II funding (duplication of benefits)?
